Friendly Reminder

Lock Those Doors: Most standard Cummings Center and Dunham Ridge entry doors are equipped with both a standard lock within the door knob *and a deadbolt mechanism*. Please note that when the deadbolt is engaged, it automatically locks the door, too. When away from the office, it is advisable to use the deadbolt.

Simple Smiles

Simple Smiles is a community bulletin board of sorts to help everyone start the week off with a smile. We are inviting all North Shore News readers to submit photos of something or some place that always makes them smile. Please refrain from sharing photos that feature people.

Shoe Snippets

Fun facts about the historic Cummings Center site, formerly known as "The Shoe"

Masons and carpenters were recruited from as far away as Canada and Italy to build The Shoe. All concrete forms were made from scratch, using wood plans, and all concrete was mixed on site, using aggregate from granite ledge blasted on location.
