

900 Cummings Center

Beverly's first Energy Star building promotes increased productivity and lower operating costs in an environmentally-friendly setting.

Now home to many Medical Center practices, law, engineering and consulting firms, this four story, 215,000 square foot building once housed a two-story furnace that produced molten metal around the clock for United Shoe Machinery. A top-to-bottom restoration connected the former foundry and powerhouse, transforming them into a corporate showplace with historical photographs and artifacts adorning a stunning vaulted lobby.

BUILDING FEATURES

- First floor full-service restaurant
- Premium efficiency HVAC and lighting
- More efficient than 90% of similar buildings
- Prime visibility facing Route 62 at Cummings Center's main entrance
- Custom build-out available, including complimentary design services
- Adjacent to Lower Shoe Pond, boardwalk, nature trails and picnic areas
- Direct access to garage parking and 100 Cummings Center through two covered pedestrian bridges
