Please [register for this free webinar](#).

## Friendly Reminder

**Lock Those Doors:** Most standard Cummings Center and Dunham Ridge entry doors are equipped with both a standard lock within the doorknob *and a deadbolt mechanism*. Please note that when the deadbolt is engaged, it automatically locks the door, too. When away from the office, it is advisable to use the deadbolt.

## Simple Smiles

Simple Smiles was created to help everyone start the week off learning, imagining, and smiling. We invite all North Shore News readers to submit photos of something or some place they find interesting, informative, or exciting. Please refrain from sharing photos that feature people.

## Shoe Snippets

*Fun facts about the historic Cummings Center site, formerly known as "The Shoe"*

The Shoe was more than just a factory. Much like the "live, work, play" Cummings Center community of today, it was its own small city within the city of Beverly, complete with a hospital, an industrial school, a restaurant, a boathouse, and community gardens. Its reputation for treating its employees well made the Shoe a model for HR practices, and the company was central to Beverly's economy right up until its closing in 1987.
