A Message About Business Continuity

Cummings Properties is committed to maintaining a safe workspace for its clients and staff. We continue to stay current on the situation regarding COVID-19, and to follow guidance from the Centers for Disease Control and Prevention, Massachusetts Department of Public Health, and Baker/Polito administration.

Although we have reduced our on-site staff presence to comply with social distancing recommendations, we remain available to you by phone and electronically.

Because the continuity of building functions is among the services deemed essential—and because so many of our leasing clients provide essential health care, biomedical, research, food-related, and other services—**Cummings Properties' buildings will remain open, and we will continue to fulfill critical functions such as trash removal, cleaning and disinfection of frequently touched surfaces in building common areas, and maintenance for urgent issues.**

More information about our response to the COVID-19 outbreak, and resources for businesses operating during this challenging time, is available on our [website](#). We thank you for working with us to protect all members of the Cummings community and ensure a smooth return to regular business operations once we have weathered the current crisis.

OPTIMIZING WORKFORCES

Simple Smiles

without fail always makes them smile. The submission possibilities are endless: We only ask that these photos do not include people.

This week's simple smiles are sent to you courtesy of the Cummings Center Leasing Office.
