## After a Decade

*Celebrating clients that have been at Cummings Center for more than 10 years*

In 2005, Mike Fogarty, president and CEO of [Tristar](#) America, took a leap of faith and chose to bring a UK-based company to the US. Tristar provides chauffeured transportation and event management services worldwide.

Mike looked at a number of different facilities and eventually decided to set up shop at Cummings Center. "The campus and the community feel of Cummings Center were great assets to us as a startup," said Mike. "The location provided excellent demographics for recruiting

employees." Mike was the first and only US-based employee when the

company located at Cummings Center, and Tristar has since expanded to a staff of 50 people in the Beverly location plus 35 Boston-based chauffeurs.

The company has fleets located in Boston, New York, Los Angeles, and San Francisco, with other affiliated partners all over the US. Cummings Center's more than 500 businesses have allowed Tristar to make a number of business connections and have provided it with a pool of potential clients.

"Our Cummings Center location has met all our needs," Mike said. "Cummings Properties' responsive team gave us the ability to expand into larger space four times over the last 12 years. We have renewed the lease four times and plan to do so again."

Cummings Properties account manager Justin D'Aveta is happy about Tristar's progress. "It is great watching our clients thrive at our historic business campus," said Justin. "Over the years, Tristar has grown to more than five times its original size! We wish Mike and the entire Tristar team continued success."
