# **Simple Smiles**

Simple Smiles is a community bulletin board of sorts to help everyone start the week off learning, imagining, and smiling. We are inviting all North Shore News readers to submit photos of something or some place that they find interesting, informative, or exciting. Please refrain from sharing photos that feature people.

# **Friendly Reminder**

**Be Careful, Be Courteous:** Please remember that proper driving etiquette on our busy campuses is *critical* to the safety of pedestrians and other drivers. Motor vehicle operators should heed all traffic signs, especially pedestrian crossings and one-way signs. Please observe the **10-mph speed limit** at all times when navigating the site, including in the East and West Garages. One-way entrance and exit driveways should be used only as designated. No matter how rushed you may feel, be on the lookout for pedestrians and vehicles backing out of parking spaces, and remember to *always* drive with caution. Help us keep Cummings Center and Dunham Ridge safe for everyone.

# **Shoe Snippets**

Fun facts about the historic Cummings Center site, formerly known as "The Shoe"

Students who were interested in becoming mechanics or inventors were given the opportunity to work at The Shoe while attending school. Two groups of boys would rotate each week between Beverly High School and the factory to gain knowledge and experience. These boys were paid only half the wage of regular employees. The other half went to school expenses. Both parties gained from this early co-op program: students received an education and hands-on experience to help them succeed in the future, and The Shoe benefited from the opportunity to train potential employees from an early age.
