Friendly Plumbing Reminder

We are excited to welcome an increasing number of leasing clients back to our business campuses. We have, however, responded to an influx of plumbing drain obstructions caused by inappropriate materials being flushed down toilets. Please note that common materials such as disinfectant wipes, baby wipes, paper towels, and sanitary items **should never** be discarded in a toilet, as a drain line blockage can lead to back-ups and significant building and property damage. These and other non-flushable items should be disposed of in the nearest trash receptacle. Thank you for your cooperation.

Simple Smiles

During these times of uncertainty, it can be difficult to see the sunnier side of things. We are inviting all North Shore News readers to submit photos of something or some place that without fail always makes them smile. The submission possibilities are endless: We only ask that these photos do not include people.

Shoe Snippets

Fun facts about the historic Cummings Center site, formerly known as "The Shoe"

In the late 1980s, after the close of The Shoe, the factory belonged to Black & Decker Corporation. Its attempt to convert the factory to an industrial park was unsuccessful and ended with a 90 percent vacancy rate. Black & Decker sold the property in 1996 to Cummings Properties for \$500,000. Today, Cummings Center is a thriving business campus that boasts a more than 90 percent *occupancy* rate.
