

August 2017

Seen Around Campus

Don't be alarmed by the new addition to TradeCenter Pond. This reptile replica is meant to deter geese and ducks from making the campus "home." Although the birds can be cute and fun to watch, feeding them can actually be harmful to their health and can attract unwanted pests and vermin. For these reasons, please do not feed any wildlife in the pond.

Office / R&D Space

Andover - 2,500 to 35,000 SF

*Now operated by **Cummings Properties***

Cummings Properties has expanded to Andover with its acquisition of **40 Shattuck Road**, just off River Road at I-93 and I-495, in a thriving corporate neighborhood. This first-class 120,000 SF office/R&D building offers modern light-filled suites in a quiet, picturesque setting.

Cummings Buildings Power Charities

Cummings Foundation is accepting Letters of Inquiry through October 1 for its **\$100K for 100** grants program, which awards \$10 million annually to nonprofits based in and serving Middlesex, Essex, and Suffolk counties. Clients who know of nonprofits that may want to apply are encouraged to direct them to [the Foundation's website](#) for eligibility requirements, application procedures, and a timeline.

Friendly Reminders

Updating client emails: To ensure the appropriate personnel are receiving important communications about building maintenance, power outages, etc., client firms are encouraged to periodically share updated contact information with Cummings Properties. Please take a moment to email [Lisa VanStry](#) with the names and email addresses of all employees at your firm who would like to receive building notices as well as this monthly newsletter.

Power play: With the summer heat and the rising cost of electricity, National Grid reminds its customers to conserve energy. In addition to shutting off unused office equipment, it is important to monitor air conditioning. If feasible, thermostats should be turned off in each area after 7 PM on weekdays, and all day Saturday and Sunday. Thank you for doing your part to conserve energy resources.

Mulch is flammable: Cummings Properties experiences dozens of mulch fires every summer, primarily due to improperly discarded cigarettes. Although these fires have been successfully contained so far, they could quickly spread to buildings and vehicles, causing needless damage. Please **never** toss cigarette butts into landscaped areas, as bark mulch is flammable.

Upcoming Holiday: Cummings Properties' offices will be closed **Monday, September 4**, in honor of **Labor Day**.

If you no longer wish to receive our emails you may [unsubscribe](#). Unfortunately, if you unsubscribe, you **will not** receive important building notices such as water and electric shutdowns, or fire alarm testing.
